MEMORANDUM FOR: Assistant to the Director for Public Affairs

SUBJECT: Forthcoming Motion Picture, John Goldfarb, Please Come Home

A motion picture starring Shirley MacLaine is shortly to be released. Its title is John Goldfarb, Please Come Home, from the novel of the same name by William Peter Blatty.

This is a story of a Jewish U-2 pilot who crash landed by mistake in Arabia, where he was detained to help train the King's football team. The resultant crises bring his former college president, Heinous Overreach, by now Director of CIA, into the picture.

I guess this memorandum is for information only. You will probably have to buy your own ticket.
